PRO-COAT

Add Value
TO YOUR VEHICLE

Tons of Salt Used Per Lane km Annually
- = Moderate (0-1 tons)
- = Heavy (between 1 and 4 tons)
- = Extremely Heavy Usage (over 4 tons)

Acid Rain Measured in Ph

4.0 = SEVERE 6.0 = MILD

5.0 = MODERATE 7.0 = NEGLIGIBLE

Protect Your Paint Finish With Environmental Paint Protection

Professionally Applied 3-Step Process:

1. NEU-Seal

- NEUTRALIZES Acid Rain & Other Contaminates
- DEEP CLEANS All Painted Surfaces
- SAFE on Today's Paint Finishes

2. ERADICATOR BAR

- REMOVES Most Mineral Deposits (hard water)
- REMOVES Minor "Rail Dust" Fallout
- REMOVES Other Iron Oxide Particles which may have Bonded to the Paint

3. ENVIRONMENTAL PAINT PROTECTION

- UTILIZES ADVANCED TECHNOLOGY in Combining Amino Functional Co-Polymers with a Dimethylpolysiloxane
- GREATER DURABILITY
- CHEMICALLY BONDS with itself and the Paint
- INCREASES LONGEVITY
- SPECIFICALLY FORMULATED for Today's Paint Finishes

PRO-COAT

Maintain the structural integrity of your vehicle.
