EXCLUSIVE PROGRAMS

ENVIRONMENTAL PAINT PROTECTION

Professionally applied 2-step process:

1. **ERADICATOR BAR**

   The best paint conditioning product
   Removes rail dust, fallout, acid rain, and other materials
   Which may have bonded to the paint surface.

2. **ENVIRONMENTAL PAINT COATING**

   Advanced technology combines amino functional co-polymers with a Dimethylpolysiloxane

   Chemically bonds with the paint

   Specifically formulated to work with today's paint finishes

   Teflon fortified to increase longevity

PROVIDES WARRANTIED PROTECTION

Against environmental damage, even

SURFACE RUST
