**Directions:** For general purpose cleaning use product at a 50:1 ratio with water. Use 1 ounce of PolyWash for every 50 ounces of water, OR 2 OUNCES OF POLYWASH PER GALLON. Pour product into a bucket and mix at the proper ratio. Apply mixed PolyWash to a wet surface using a sponge or wash mitt, wiping and washing surface as you go.

**Caution:** Detailing tip: Always keep the surface you are washing wet and out of direct sunlight to reduce water spots!

Final Rinse the surface after it has been Polywashed, removing all loose dirt and grime. Towel dry.

50:1 General purpose cleaning

100:1 Light purpose cleaning

**Caution:** Keep out of reach of children!
