

## TopCoat

This is the best product I have ever used on my cars and airplane. Not only did it replace a variety of products to protect various parts of my vehicles. It does things better. Like RainX is good but TopCoat is better because it doesn't have the glare from street lights at night that RainX causes. TopCoat also is much easier to use than any of the previous products I used. It is so easy that I know users that put on the TopCoat every time they wash their cars. The only thing easier would be to do nothing but then you would miss the pleasure of seeing the result of spending a few minutes to make one of our most expensive possessions look great.

Almost forgot it works wonders on kitchen counter tops and Refrigerators. Not only do they look great most finger prints don't show. Top coat is a nice name but it does so many things so well I vote for changing the name to "SNAKE-OIL" like the old west peddlers sold to cure everything :)

Make your car happy for the holidays and all year. Top coat it !!
