comments:

I own my own business and it's growing but I'm very interested in your products. A friend of mine in New York sent me two bottles and I used it on everything could not believe the results I put a thick layer on the hood rubbed it in and ran the buffer over it took off bugs, the film on the headlights, the surface was so slick and the shin it had was incredible.

We are expanding within the next year and would like to do a presentation to the company that contract's me. If you would not mind I need a cost sheet on about car's a month, & any other product's you might think we could use on our car's and trucks.

I would so much appreciate your time.

Thank you,

Jo-A.....
Owner/operator
